FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.401 sets out the fee guideline for acute care inpatient hospital services.
3. 28 Texas Administrative Code §134.1 provides for fair and reasonable reimbursement of health care in the

absence of an applicable fee guideline.

4. Texas Labor Code §413.011 sets forth provisions regarding reimbursement policies and guidelines.
5. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 1 – (42) - Charges exceed our fee schedule or maximum allowable amount.

Findings

1. 28 Texas Administrative Code §133.307(c)(1) states that "A requestor shall timely file with the Division's MDR Section or waive the right to MDR. The Division shall deem a request to be filed on the date the MDR Section receives the request. (A) A request for medical fee dispute resolution that does not involve issues identified in subparagraph (B) of this paragraph shall be filed no later than one year after the date(s) of service in dispute." The request for dispute resolution of services rendered from dates of service June 23, 2006 to July 8, 2006 was received by the Division on June 28, 2007. This date is later than one year after dates of service that are included in this dispute. Review of the submitted documentation finds that the disputed services do not involve issues identified in §133.307, subparagraph (B). The Division concludes that the requestor has failed to timely file this dispute with the Division's MDR Section; consequently, the requestor has waived the right to medical fee dispute resolution with respect to those services rendered between June 23 and June 27, 2006; these services will not be considered in this review. However, the Division concludes that the request for dispute resolution of services rendered from June 28 to July 8, 2006 were submitted in accordance with the timely filing requirements of §133.307(c); therefore, these services will be reviewed per applicable Division rules and fee guidelines.
2. This dispute relates to inpatient hospital services with reimbursement subject to the provisions of former 28 Texas Administrative Code §134.401(c)(5), which requires that "When the following ICD-9 diagnosis codes are listed as the primary diagnosis, reimbursement for the entire admission shall be at a fair and reasonable rate: (A) Trauma (ICD-9 codes 800.0-959.50); (B) Burns (ICD-9 codes 940-949.9); and (C) Human Immunodeficiency Virus (HIV) (ICD-9 codes 042-044.9)." Review of box 67 on the hospital bill finds that the principle diagnosis code is listed as 801.20. The Division therefore determines that this inpatient admission shall be reimbursed at a fair and reasonable rate pursuant to Division rule at 28 Texas Administrative Code §134.1 and Texas Labor Code §413.011(d).
3. 28 Texas Administrative Code §134.1, effective May 2, 2006, 31 *Texas Register* 3561, requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."
4. 28 Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
5. 28 Texas Administrative Code §133.307(c)(2)(E), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include "a copy of all applicable medical records specific to the dates of service in dispute." Review of the submitted documentation finds that the requestor has not provided copies of any medical records to support the services in dispute. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(E).
6. 28 Texas Administrative Code §133.307(c)(2)(F)(i), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "a description of the health care for which payment is in dispute." Review of the submitted documentation finds that the requestor has not provided a description of the health care for which payment is in dispute. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(F)(i).
7. 28 Texas Administrative Code §133.307(c)(2)(F)(ii), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "the requestor's reasoning for why the disputed fees should be paid or refunded." Review of the submitted documentation finds that the requestor has not stated the reasoning for why the disputed fees should be paid. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(F)(ii).

8. 28 Texas Administrative Code §133.307(c)(2)(F)(iii), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "how the Labor Code, Division rules, and fee guidelines impact the disputed fee issues." Review of the submitted documentation finds that the requestor has not discussed how the Labor Code, Division rules and fee guidelines impact the disputed fee issues. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(F)(iii).
 9. 28 Texas Administrative Code §133.307(c)(2)(F)(iv), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "how the submitted documentation supports the requestor position for each disputed fee issue." Review of the requestor's documentation finds that the requestor has not discussed how the submitted documentation supports the requestor position for each disputed fee issue. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(F)(iv).
 10. 28 Texas Administrative Code §133.307(c)(2)(G), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable." Review of the submitted documentation finds that:
 - The requestor's position statement asserts that "This claim has been partially reimbursed; however, it was not paid according to the Acute Care Hospital Fee Guidelines set forth by the TWCC. . . . This claim meets all of the criteria defined by the SOAH docket . . . In order for the carrier to be compliant with rule 134.401 and the lead Stop-Loss SOAH docket, the carrier will need to pay an additional \$7,886.95."
 - As noted above, the Division's former *Acute Care Inpatient Hospital Fee Guideline* at 28 Texas Administrative Code §134.401 is not applicable to the services in dispute, the applicable rule for reimbursement is 28 Texas Administrative Code §134.1.
 - Moreover, per §134.401(c)(6), "The diagnosis codes specified in paragraph (5) of this subsection are exempt from the stop-loss methodology and the entire admission shall be reimbursed at a fair and reasonable rate." As stated above, the Division has found that the primary diagnosis is a diagnosis code specified in §134.401(c)(5); therefore, the disputed services are exempt from the stop-loss methodology and the entire admission shall be reimbursed at a fair and reasonable rate.
 - The Division has previously found that a reimbursement methodology based upon payment of a percentage of a hospital's billed charges does not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the adoption preamble to the Division's former *Acute Care Inpatient Hospital Fee Guideline*, which states at 22 *Texas Register* 6276 that:

"A discount from billed charges was another method of reimbursement which was considered. Again, this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources."

Therefore, a reimbursement amount that is calculated based upon a percentage of a hospital's billed charges cannot be favorably considered when no other data or documentation was submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.
- The requestor did not submit any medical documentation to support the disputed services as billed.
 - The requestor did not submit documentation to support that payment of the amount sought is a fair and reasonable rate of reimbursement for the services in this dispute.
 - The requestor did not submit nationally recognized published studies or documentation of values assigned for services involving similar work and resource commitments to support the requested reimbursement.
 - The requestor did not support that payment of the requested amount would satisfy the requirements of 28 Texas Administrative Code §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

Conclusion

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The requestor failed to timely file this dispute with the Division's MDR Section, and has therefore waived the right to medical fee dispute resolution for disputed services rendered between June 23, 2006 and June 27, 2006. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307. The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the services in dispute.
